Languages

English ★★★★★

Spanish ★★★☆☆

Solution-driven front-end/back-end developer with a solid grasp of SQL development and database administration. Savvy with command-line interfaces across Linux/Unix and Windows systems. Highly proficient in bash and powershell scripting. Extremely knowledgable of cyber security tools and policies. Seeking to leverage web and adminstration skills and expertise to develop and maintain aesthetic, efficient, and secure web applications for businesses and clients.

Work History

2020-07 - present

IT Specialist | Sales Associate | Social Media Manager

Brookdale Pet Center, Bloomfield, NJ

Troubleshoot, test, and fix printers, card machines, routers, and computers. Install new desktop hardware.
Monitor our email inbox for any suspicious-looking, potentially phishing emails, and educate my coworkers on phishing to ensure no company information gets in the wrong hands.
Manage our store's social media presence.
Research all pet products we sell and craft talking points to sell them to customers.
Create and post social media content to boost traffic to our store's website and generate more attention to our store overall.
Utilize Google Sheets formulas to automate the repetitive steps of data entry.
Utilize Google Forms to collect and analyze customer feedback on new products, sales, and services.

2018-09 - 2020-06

Leadership Experience | FIRST Robotics Club Vice President

Bloomfield High School, Bloomfield, NJ

Helped complete the challenge of building a 120-pound robot in 6 weeks for 3 consecutive years.
Handled the wiring and cables of the electrical components of the robot.
Repaired glitches in the robot code and optimized the code by changing multiple if-else statements to switch statements and/or while loops.
Produced and uploaded videos of our team's endeavors and posted them on our social media accounts.
